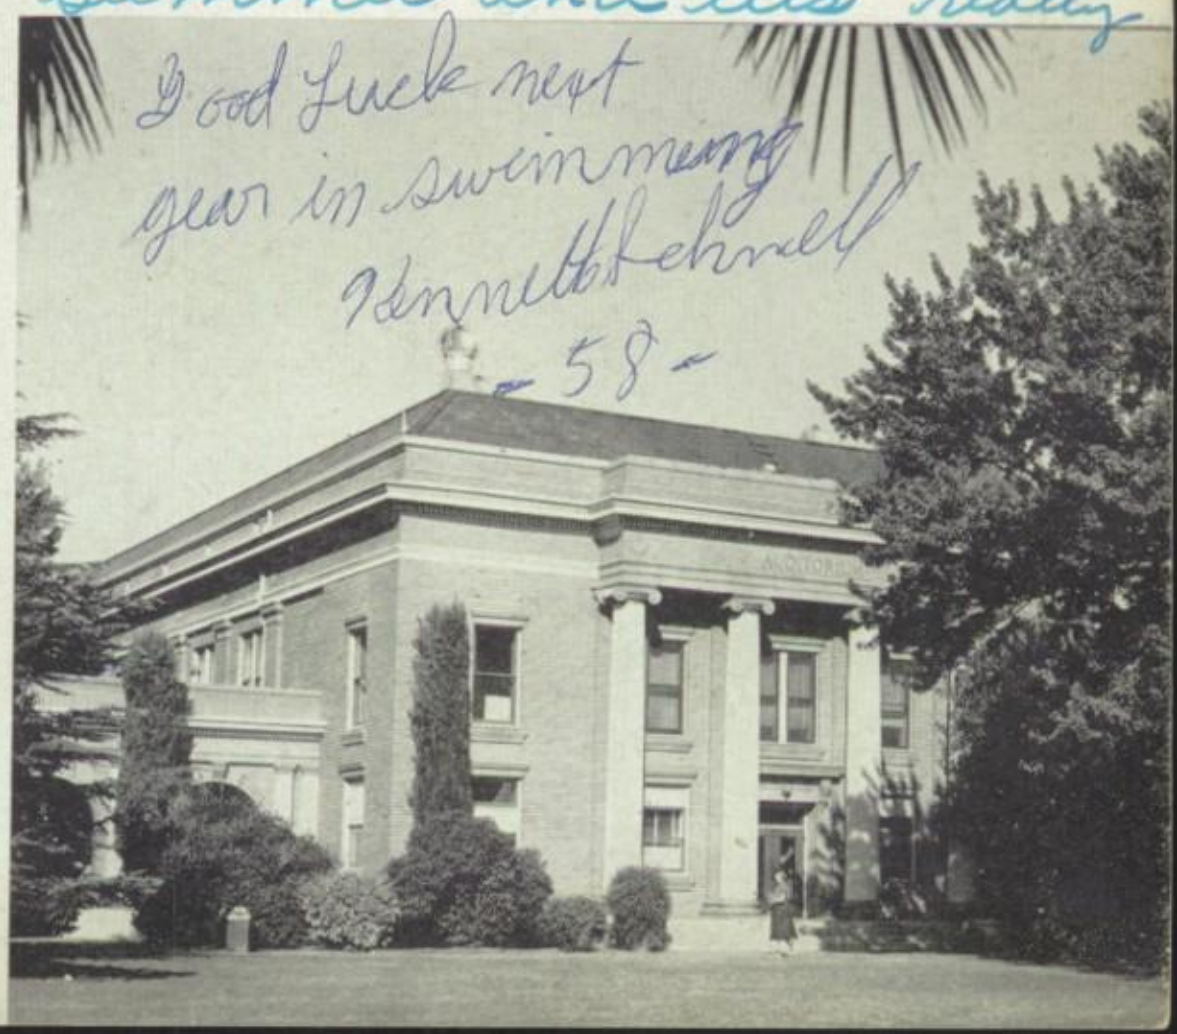
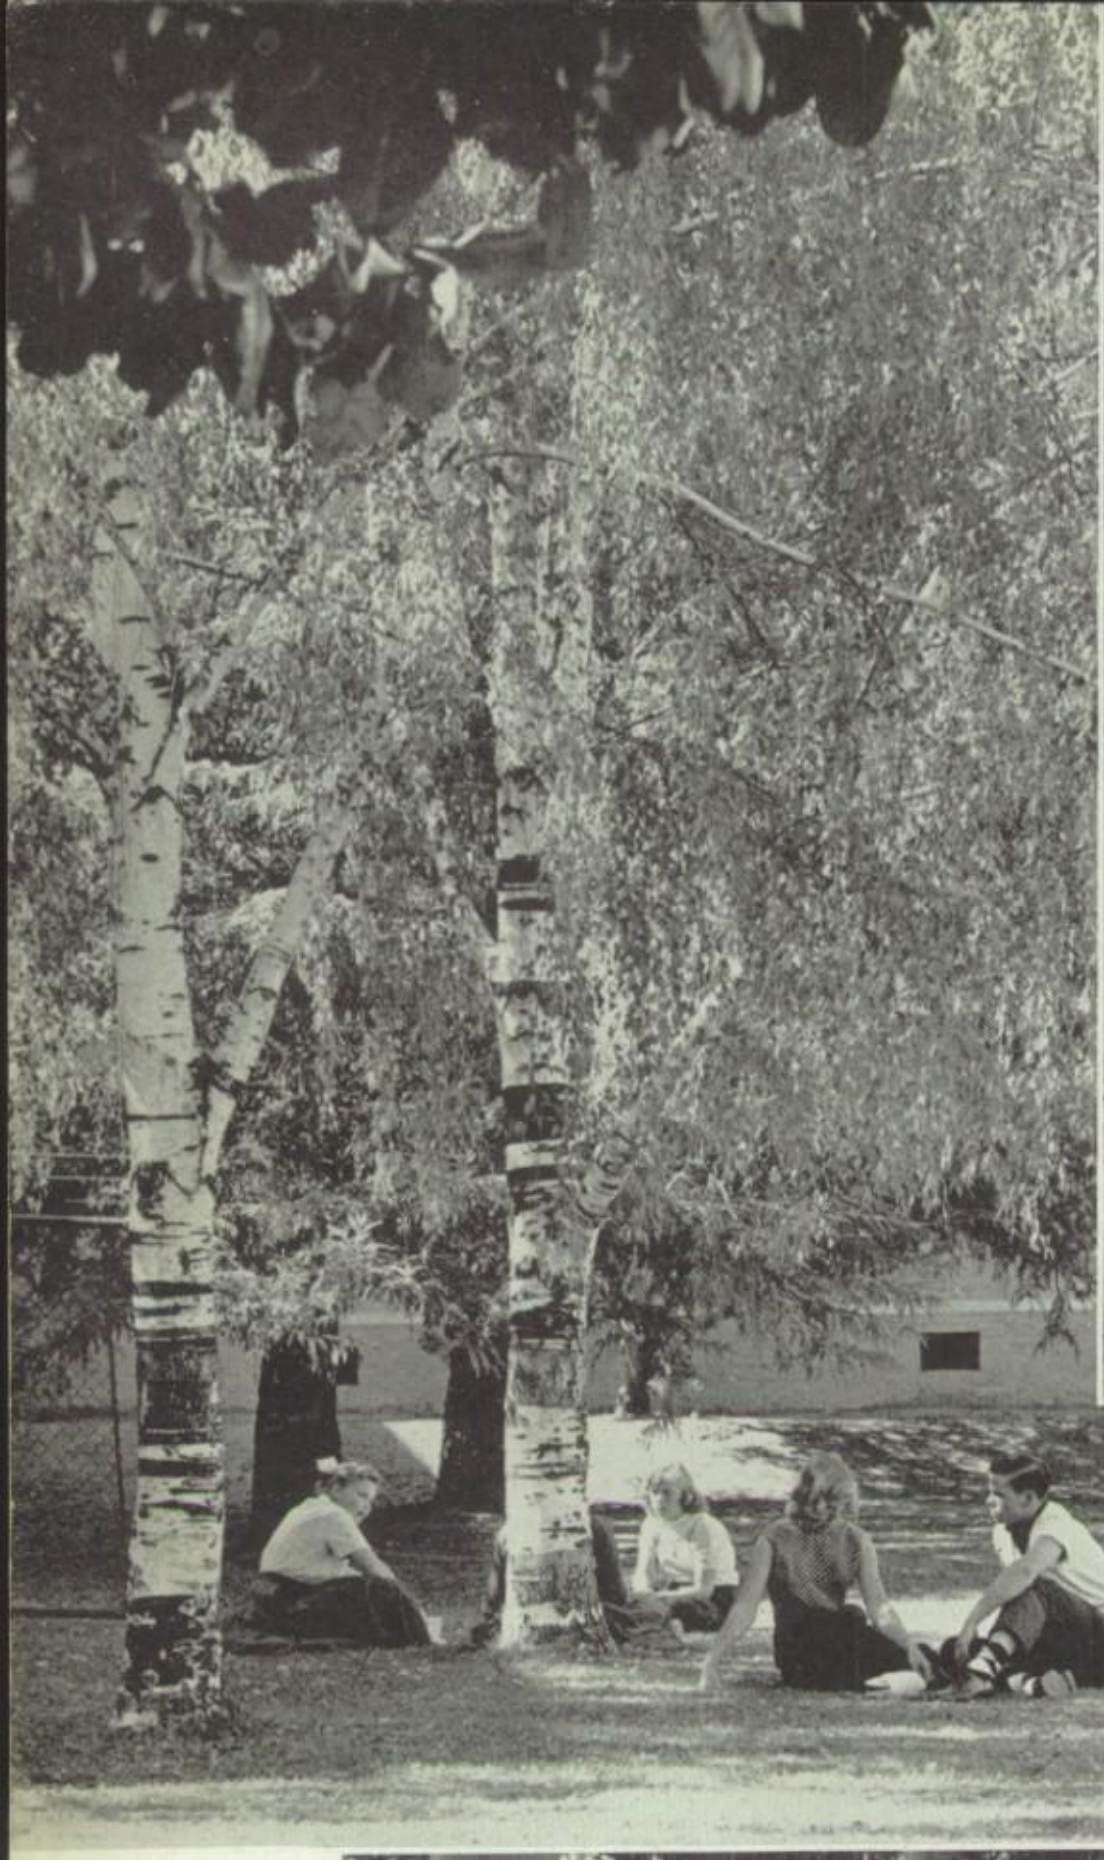
Scenes of Our

Campus





Staff

Dr. Lawson Smith
Superintendent of Schools

Our graduates of 1956 will look back on their senior year with such thoughts as: "Yes, I was a senior at Lodi high when they started the new building". "That was the year the people passed a special tax to provide an adequate program", and "Boy, did it rain during the winter of 1955-56."

These topics spotlight the responsibilities of your superintendent during this year. It has been wonderful to have a school board and staff of teachers and administrators who were both willing and able to assume their full share of the burdens during this very busy time.

I am most grateful for a student body that has worked on their own problems with a persistence that will mark them as worthwhile, contributing citizens in the years to come. Our Lodi high students learn to govern themselves and to plan their work. The greatest satisfaction for a school superintendent is the privilege of working for young people of this caliber.

The new building is well on its way, but it won't be finished for the start of school in September. The Special Tax approved by the voters will have a direct effect on our educational offerings next year, and students will benefit for five years.

Lawson Smith, superintendent

Board of Education

Dr. Milton Bergantz — Mr. Robert Mullen, president — Mr. George Schmiedt, clerk

Mr. Charles Black — Mr. Niel Locke

The school year 1955-56 has been a year of building at the Lodi Union High School. Preparation for the construction of the new west campus began early in the school year. Due to bad weather conditions, the contractors found it difficult to lay the foundation for the plant. But as the skies cleared, the work proceeded and the foundations were completed in a manner that would assure sound footings for the classrooms to be erected.

Many students were also building foundations during the school year 1955-56. Some were building foundations that will lead directly to a vocation upon graduation from high school. Others were building foundations which will require additional preparation on the college level before they reach their ultimate goal in the professions or in the business world. Whatever the ultimate plan may have been, it was important that every student spend the time and effort necessary to build a firm foundation that would support the structure to be placed upon it.

Mr. Frank Stocking
Principal, Lodi Union High School

You members of the graduating class of '56 have completed the foundations for your life plans. You have also influenced the planning of your fellow students who must assume the position of leadership left vacant by your graduation. Your influence on the campus will be long remembered, and we are certain that time will prove that you planned well while at Lodi High.

To those students who will return next year, we issue the challenge to carry on the fine traditions of foundation building which have always characterized the "Flames" of the past. We know that you will not fail to meet this challenge.

As this year draws to a close, we find this year's students did a very fine job with the problems that came up. I'm sure that the entire Council, as well as myself, would like to thank the Student Body for the wonderful co-operation which they gave us. When we had problems with the behavior at the games and the cleanliness of the parking lots, you gave us the utmost in co-operation in order to solve these problems.

I would also like to thank Bill Slipp for the great job he has done since taking over.

In closing I'd like to say that it was really a pleasure to work with such a wonderful group of kids on the Student Council and in the Student Body. I'd also like to thank our Advisor, "Chris" Christensen, who helped us out all the way. To next year's president I'd like to wish the best of luck and co-operation.

Play

Thursday & Friday, May 24, 25

"You Can't Take It With You," was the play selected by the Senior Class for its annual production. An all-time favorite by Kaufman and Hart, The comedy was also a great success with a L.U.H.S. audience. The crazy antics of Grandpa Vanderhaf and his brood proved to be as hilarious as ever. Everything and everybody was geared for laughs: The fireworks in the basement, the snakes in the living room, the ballet dancer, the playwright, the xylophone player, the Russian exile. Even the trouble of the two young lovers never reached tragic proportions. Only Grandpa's simple philosophy was worthy of reflections; and it, too, was more laughable than probable.

1955 Season

For the first time in five years the "Flames" did not win or tie for the league championship; however the football season was highly successful with Lodi winning 7 games, losing 1 and tieing 1. In the "Big Game" with Stockton the "Flames" again defeated their rivals by a 14-13 score. Three games were won by 1 point, and the point-after-touchdown kicking of sophomore Don Delzer was the difference. Lodi ended in a second place tie in league standings. Coaches Gianonni and Pifferini did a great job in building a winning team.

1956 Season

From the standpoint of winning games, the 1955-56 basketball season was not successful. Coach Bob Trumbly was faced with the task of fashioning a team with practically no returning veterans on which to build his squad. With the team made up of juniors, Lodi failed to hit the victory trail until well into the season. Prospects for the 1956-57 season, however are bright as almost the entire squad from this year will return.

B Basketball

1956 Season

Like their big brothers on the varsity, the B basketballers had their troubles breaking into the win column. In league play the team won only two games, but were nosed out in close games several times. Only one senior, Frank Castillo was on the squad and so prospects for next season are very bright. Coach Robinson, in his first year as a member of the Lodi P.E. Department, deserves much credit for the fine job he did in developing a very green squad into a good squad who defeated the tough Stockton team in the final game of the season.
